

Try a Toilet

Your gift helps provide **School Toilets** so children, particularly girls, feel comfortable and safe at school - and don't miss out on learning.

Your Gift of Grace delivered in:

Jonglei and Eastern Equatoria States,
South Sudan

What you give	<ul style="list-style-type: none"> • You help build a 4-stance toilet block: 4 cubicles plus handwashing station • Includes ramp plus cubicle with handrails for students with a disability
Why your help is needed	<ul style="list-style-type: none"> • Jonglei State is the least-developed region of Africa • Conflict, flooding and drought are ongoing • Millions of displaced South Sudanese are returning home to rebuild their lives and their country • This means millions of children returning to school • Girls often miss out on school, particularly as they get older, and are kept home to help with chores • If there are no safe, private toilets, they are more likely to not attend, especially when they start menstruating
How your gift changes lives	<p>Your toilets mean children miss less school, especially girls... ...so they can continue their learning as they settle back into their country ...and have the best chance at a healthier, happier future.</p>
Your gift delivered by	LWF South Sudan

Many schools were flooded in 2022-2023...

The old toilets were damaged...

Your new toilets will replace them, so all children can be safe and comfortable at school!

CASE STUDY

“We’ll be happy to go to school”

“My name is Elizabeth. There are 26 male teachers at my school and no female teachers.

Many girls and children must travel 2 hours each way to school, starting at 6am without any breakfast and leaving school again at 4pm.

My mother told me about getting periods. I feared when going to school that it will show.

The lack of proper toilets made it difficult to change during school hours. Often it was easier to just stay at home.

My mother heard about the LWF training and told me to go as they would help me.

I learnt how to use the menstrual cup. I like using it. Now I can save money because I don’t have to buy the ‘Always’ pads.

I can use this money to go towards my school fees.

If we get the new latrines, it will make it more private and easier for us girls. We will be happy to go to school.

I would like to finish Senior School, because I think school is important.

If there was an opening, I would like to work for LWF and raise awareness about the importance of latrines for girls - and help teach other girls.”

“I thank God for the courage of those like you who give money to help us here in South Sudan.

We are in poverty, but you are empowering us to do something for ourselves.

I pray to God you can continue...”

Ajok, South Sudan
